Re: Photocircuits Division/Kollmorgen Corporation (TDD No. 02-8709-11)

Dear Amy:

Enclosed are sections 1 and 2 of the Draft Work Plan for the Expanded Site Inspection (ESI) at the Photocircuits Division/Kollmorgen Corp. site in Glen Cove, New York. These sections encompass the project objectives and existing data, and demonstrate the need for the eventual completion of the ESI. Further work on the Photocircuits ESI has been delayed due to the current need for the completion of Site Inspections. As more data pertaining to the site becomes available, periodic updates will be forwarded to your office.

If you have any questions, please contact me.

Very truly yours,

Susan M. Kennedy
